General Specifications

COMPUTER:	Records and indicates simultaneously both gallons and fractions of a gallon and the amount in dollars and cents. <i>Synchronized price control</i> on both sides of pump. Computes at price posted. <i>Bell ringing attachment</i> indicates each gallon as delivered. <i>Interlocked</i> so that pump cannot be operated until computer is turned back to zero after each sale.
METER:	Piston type—accurate at any rate of flow and at any pressure.
AIR SEPARATOR AND PRESSURE RELIEF:	Built into meter. <i>No return line to tank necessary.</i>
PUMP:	Viking rotary type with built in strainer and by-pass.
MOTOR:	Explosion resisting 1/3 h. p., 110-220 volt, 1 phase, 60 cycle, with built-in switch.
ELECTRICAL WIRING:	All rigid conduit and explosion resisting conduit boxes.
BRILLIANTLY LIGHTED:	Individual lights directly over each meter dial.
METER BEZEL:	Brass-chrome plated.
HOSE:	Ten feet 3/4" standard gasoline hose.
NOZZLE:	Two speed non-chatter type.
PUMP GLOBE HOLDER:	Furnished with each pump. Can be attached quickly.
STANDARD MODEL:	Finished in baked on enamel and complete with hose and nozzle valve. Foot valve or angle check valve at small extra cost.
UNDERWRITERS' LABEL:	All Southwest pumps bear the Underwriters' Label.

Standard Models

Cut 612-C	Complete as shown except without synchronized price control.
Cut 612-CS	Complete as shown with synchronized price control.
